

SABG Bulb & Seed Exchange 2022

Below are listed all bulb and seed donations, including items promised to be available shortly. As always, our members have once again been very generous with their surplus material and time. Please do remember many seeds and bulbs/corms are in extremely short supply, particularly this difficult year. Whilst we will try to fulfil all requests, it is hard to split a single bulb six different ways. Species are listed below using the names provided by the donors. In a few cases, the spelling of names has been corrected, but as a voluntary organisation with limited resources, please bear in mind that we are not able to check the accuracy of these identifications. I have now included *Polyxena* within *Lachenalia*.

Empodium. There have been discussions about the correct naming of the *Empodium* species we grow for a few years now. We have now had a response from Dee Snijman who has worked on the family *Hypoxidaceae* over many years. Her view, which I have adopted here, is that

- the plants we have previously grown as *E. flexile* or *E. namaquensis* are correctly ***E. elongatum***
- the plants we have previously grown as *E. plicatum* are correctly ***E. flexile***.

I hope you will all change your labels, otherwise it will be very confusing in future years when I receive material labelled *E. flexile*.

On receipt of the list, please send your wishlist to me, Jon Evans, 46 Upper Way, Farnham, Surrey, GU9 8RF, UK, or to jonevans46.uw@btinternet.com. I will acknowledge every email request I receive, usually within 24 hours, so if you don't receive a response, please try again, and copy in the secretary, Richard White (richard@rijwhite.tk) – your request may have vanished into the ether. Please try to get your requests back to me **by 30th August**, as I will start dispatching items in early September.

- There is no limit to how many items you may request. But please mark up to **fifteen** first choices. I will try to satisfy everyone's first choices before looking at additional items requested.
- Please order by using the numbers alongside the descriptions.
- If you want a particular species but don't care which donation, just give the name of the plant and 'Bulb' or 'Seed', or a range of numbers.
- Remember to add your **postal address**.

If you have not donated bulbs or seed, the Committee expects you to make a donation to cover the cost of postage and packing. The following table suggests minimum amounts:

Order	Minimum
• seed only	£2.50
• < 10 items	£2.50
• 10-50 items	£6.00
• > 50 items	£10.00

No large bulbs eg Nerine, Veltheimia

You can send cheques drawn on a UK bank or UK postal orders payable to "SABG", or make a bank transfer to 'Southern African Bulb Group', sort code 60-01-31, account number 59755709. In the latter case, specify your name as the reference so that we know who it's from. Please don't send postage stamps.

Paypal

We cannot directly accept credit or debit card payments, but if you have a PayPal account you can pay that way. Overseas members may find this helpful.

To use PayPal, log into your own PayPal account using a Web browser or the PayPal mobile app, click on "Send" (or "Send & Request", then "Send Money") and enter the address pay@sabg.uk in the box. (Our old PayPal address pay@sabg.tk still works for the time being, but may not in future.) Alternatively, you can type paypal.me/paysabg into your Web browser's location bar (not the Search box), but you will be asked to log into your PayPal account anyway if you haven't done so already.

You should see "@paysabg", the SABG Lachenalia logo and "Southern African Bulb Group", and a space to enter the amount to pay, in £ (GBP). You may only be able to enter digits for the pounds and pence, not a period ".", so watch carefully where the decimal point appears as you type!

Please add a brief note describing what the payment is for, e.g. 'Exchange 2022'. Include your name if your PayPal account uses a name which we might not recognise. Select or accept "**Paying for an item or service**". If it says "Sending to a friend or to family", click on "Change" and select "Paying for an item or service". A "shipping address" may be shown, but I won't see this, so make sure you sent me your postal address with your order. Click on "Send money now".

Overseas Members

I would like to clarify our policy regarding sending items to overseas addresses.

We are only able to send material to overseas members in ways complying with their government's regulations (i.e. no mis-labelling of contents etc), and only when conforming with those regulations is neither too onerous, nor expensive (e.g. we cannot issue Phytosanitary certificates etc). We expect the relevant member to be able to guide us in following their government's requirements. Although we do our best to comply with the regulations where possible, we cannot be held responsible for any bulbs or seeds which are confiscated.

A Phytosanitary certificate is now required to send packages to the EU, and to Australia. This would be a difficult and expensive administrative burden, and we regret that as a result we are unable to send bulbs or seeds to EU or Australian addresses at this time.

We are participating in endeavours with other UK gardening societies to lobby the UK government to change the regulations to facilitate international seed exchange, but the import requirements set by the EU are outside the control of the UK government, and are unlikely to be affected by any changes.

Donors

Donors' initials are shown against each description, as follows:
