

Gallery

We have started to build a gallery of photographs of South African bulbs and related subjects. It should be possible to view the pictures on any computer, tablet or smartphone with access to the Internet.

- Go to the **Gallery** (gallery.sabg.uk), which uses software¹⁾ which is different from the main website. At the moment, as a test, it only contains the book covers for the [Auction of books \(March 2023\)](#) during March 2023.
- **Audrey Cain's BulbWeb** has not yet been integrated with the Gallery but can be viewed in its interim form:

The stuff below is experimental

and probably won't remain in this form indefinitely.

Test using Audrey Cain's photos (letter 'A' only)

Test using book cover photos

Test Dokuwiki 'gallery' plug-in using an RSS feed

¹⁾

Piwigo, see <https://piwigo.org/>
